Peyton Adler: “This summer I have the opportunity to be a production intern at Kohls for their Simply Vera Vera Wang team! I am so excited to learn more about the fashion industry as well as Vera Wangs own personal line. Working as a production intern I handle quality reviews, purchase orders as well as dealing with their style management system. Working in the fashion industry has always been a dream of mine and I cannot wait to get started!”

Lily Lazarus: “This summer, I am thrilled to be working as a Supply Chain Intern at Insomnia Cookies. In this role, I will be diving deep into the intricate logistics that ensure fresh, warm cookies and other products are delivered to customers nationwide. I look forward to contributing to the seamless operation of this beloved brand and gaining great experience in the field of supply chain management.”

Abby Passerella: “This summer I am a sales intern for PepsiCo where I will be working on pricing and promotion strategies and learning valuable skills from members of this global food and beverage company. I am excited to get started!”

Why Aephi?

"Growing up in a household with two older brothers was always an adventure, but I knew deep down I wanted nothing more than a sister. Before joining Greek life I had no idea what it entailed. Little did I know, going AEPHI would be beyond what I just needed. I went from having 0 sisters to having almost 200 in a day. The level of comfort and love I feel when I am surrounded by fellow sisters is indescribable.

I knew from the moment I got asked back to Aephi on the philanthropy day of recruitment that it was the place for me.

I am free to be myself and have the biggest support system when it comes to AEPHI. I couldn't have made a better choice. Why AEPHI, because AEPHI is home"

"College was the best experience of my life. What I would to be back! Joining Aephi was different for me.

A lot of my close friends did not go Aephi. The second I moved into the house I was so beyond happy with my decision. Fast forward over twenty years these are my best friends I can also call my sisters. These girls are still my shoulders to cry on, my first phone call to laugh with and so much more. The second my daughter joined Aephi I knew she was going to have the best friends any girl would want. When she sent me a picture on Bid day my emotions took over. I was hysterical because she is not only my mini me, but she is my sister. Surprising Drew on initiation was something I will cherish and remember forever. Aephi is the best and I am so lucky to always have these girls by my side. I am so happy for Drew and can't wait to visit her living in my exact same house."

"Growing up with a best friend like my mom was so special. I have always been told I am a younger version of her which was the best compliment ever. Following my dreams and attending The Ohio State University just like she did I knew I wanted to be sisters with her. Throughout the rush process I had constant support from her and when I opened my card on bid day she was not just my mom anymore. I had not only received a bid from AEPHI, but I was officially sisters with my mom. I always appreciated this underlying support from her but something that made this experience more memorable was the fact that she got to initiate me. As I walked in my white dress my mom had surprised at one of the most important days. She was sitting there crying as she got to initiate me into a sorority that would not only give me my best friends, but my sisters. Seeing my mom still connect with her sisters 25 years later reminds me of how perfect my choice of AEPHI was. To say that my mom is my sister and my best friend is a very special gift I have been given. I am forever grateful for this experience."
